

FOR IMMEDIATE RELEASE

PRISM Safety Management System Named a Top 10 Most Innovative Product

Greenwood Village, Colorado, December 28, 2015

Professional Resources in System Management, LLC (PRISM) is pleased to announce that the ARMOR (Aviation Risk Management Online Resource) SMS solution has been selected as a Top 10 most innovative product according to Rotorcraft Pro's 2015 Innovators Contest. Rotorcraft Pro explains that, "there are lots of companies in the helicopter industry, both large and small, who are innovative but go unnoticed. The Rotorcraft Pro Innovators Contest set out to fix that by soliciting submissions of products and services considered to be innovative." To narrow the field, "Once all submissions were in, a neutral panel narrowed the field down to the top 20, which were then presented via Rotorcraft Pro's Facebook page for a social media vote-off where 4,900 votes were cast."¹

"PRISM couldn't be more proud to be recognized in the Innovators Contest. Our ARMOR software definitely fits into that category as it provides a comprehensive web-based SMS solution which is customizable to any operation, with integrated features such as hazard and event reporting, Flight Risk Assessment Tool (FRAT), IEP checklists, training elements and so much more - all easily accessible," said Chris Young, Vice President - Helicopter Aviation Services at PRISM. "This recognition goes to show that we have a product that is world-class and helps our customer's more effectively manage their safety management system."

ARMOR provides operators with an intuitive system that can be accessed from anywhere in the world via an internet connection, iPad® or iPhone®.

ARMOR features:

- Flight Risk Analysis Tool (FRAT) – Accessible online or using PRISM iPad® or iPhone® App
- Ground Risk Analysis Tool (GRAT) – Accessible online or using PRISM iPad® or iPhone® App
- Hazard Reporting Manager – Accessible online or using PRISM iPad® or iPhone® App
- Internal Evaluation Program (IEP) Manager
- Safety Materials Resource Library
- Training Qualification Tracker (TQT)
- "Safety Locker" document management with read and initial tracking
- Project Manager
- Risk Assessment Tool
- Dashboard

About PRISM

PRISM is a wholly owned subsidiary of ARGUS international, Inc. PRISM is the industry's leading provider of advanced Safety Management Systems (SMS) solutions, and is also an FAA recognized certification consultant.

ARGUS International, Inc. (ARGUS) is a specialized aviation services company with global expertise whose mission is to provide the aviation marketplace with data and information necessary to make informed decisions and manage risk.
