AMO-355F/FA/FB/FC REPAIR STATION MANUAL	REV 0, ISSUE 1 DATE: DEC 2020

b. Approved Content: The following content of the RSM has been approved by the President.

c. The Quality Control Manual listed in Table 2 below which has been prepared by the certificate holder under GACAR §145.91(c) has been accepted by the President. The certificate holder is authorized to use the accepted manual subject to the conditions and limitations prescribed in this operations specification.

Table 2 -Accepted Quality Control Manual

Quality Control Manual	Revision
AMO-355F/FA/FB/FC REPAIR STATION QUALITY CONTROL MANUAL	REV 0, ISSUE 1 DATE: DEC 2020

Date Issued 09 Dec 2020

OPERATIONS SPECIFICATIONS

- d. Limitations: Unless otherwise permitted under manual revision procedures approved by the President, all revisions to the accepted content of these manuals must be accepted by the President prior to its promulgation and use.
- e. Emergency Revisions. For safety reasons, a certificate holder may find it necessary to immediately revise accepted material in the Repair Station Manual before there is an opportunity to coordinate the revision with the PMI. For example, a certificate holder may become aware of a deficiency after business hours, on a weekend, or on a holiday. When emergency revisions to material are made, the certificate holder must notify the PMI of the revision at the earliest practical opportunity (preferably the first working day after the action).
